INTERNATIONAL SEARCH REPORT

International application No
PCT/EP2005/003319

Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons

1 ☐ Claims Nos
because they relate to subject matter not required to be searched by this Authority, namely

2 ☒ Claims Nos
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically

3 ☐ Claims Nos
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6 4(a)

Box III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application as follows

see additional sheet

1 ☐ As all required additional search fees were timely paid by the applicant this International Search Report covers all
searchable claims

2 ☐ As all searchable claims could be searched without effort justifying an additional fee this Authority did not invite payment of any additional fee

3 ☐ As only some of the required additional search fees were timely paid by the applicant this International Search Report
covers only those claims for which the fee was paid, specifically Nos

4 ☒ No required additional search fees were timely paid by the applicant Consequently, this International Search Report is restricted to the invention first mentioned in the claims it is covered by claims Nos

1-67

Remark on Protest

☒ The additional search fees were accompanied by the applicant's protest

☐ No protest accompanied the payment of additional search fees

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-67

Methods and devices for spark perforating an electrically insulating substrate, solving manufacturing problems.

2. claims: 68-73

Electrically insulating substrates having a structure or array of structures as produced by spark perforation and use of the same. These solve several application problems.
